

# LARALAB

## MEDICAL ENGINEER (m/f/d)

At Laralab, we are a start-up working on exciting and impactful things! Our goal is to make the planning of cardiac interventions more thorough and to help introduce new therapy options with better outcomes. We have partnerships with companies and clinics worldwide and are backed by strong investors. We love the challenge of innovation and our technologies are A.I.-powered (truly!). Most of all, we are growing our team to make these innovations a growing reality.

Would you like to play a central role in this growth process? We are looking for a **Medical Engineer** to join our team of medical and software experts. You will contribute to the development of our impactful software products as it is your goal to receive regulatory approval and clinical application for these products. This brings you into an exciting key position in our team, working on the interface of software development and quality management.

### Your Skills

- Degree in Biomedical Engineering or similar
- Basic experience in medical software development incl. areas such as software requirements engineering, verification and validation, risk management and documentation
- Analytical and structured working style with ability to quickly adapt to new topics (e.g. to develop clinical knowledge in relevant areas) and take over responsibility
- Basic knowledge and understanding of the regulatory frameworks and relevant standards for medical software (e.g. IEC 62304, ISO 14791)
- Programming skills (e.g. Python) are a plus

### Your Challenges

- Plan, coordinate, perform and document software verification, validation and risk management activities throughout the software life cycle
- Work on stakeholder and software requirements for the next generation of software products
- Manage software releases and compile technical documentation for regulatory submissions for our AI-based software products (e.g. FDA 510(k), MDR)
- Be directly involved in clinical projects with our customers: work on technical concepts and support publications

Be Part of Our Story – there is a lot in it for you!

- Opportunity to grow with an international company which provides a real purpose
- Dynamic start-up environment with a young, passionate and multidisciplinary team
- Steep learning curve, great flexible working environment, office centrally located in Munich

Sounds interesting? Send us your CV, cover letter, and relevant certificates.

Have questions? We'll be happy to answer them!
